

PROGRAM GROUPING REPORTS					
Note: The Enrolment numbers used in these reports are the study year one, funded headcount. For the Fall term the November headcount is used.					
Folder	Report	Title	Format	Expanded Description	Input Parameters
<p>Program Grouping Reports: these reports present data for groups of programs. Users can determine the groups based on CIP codes, MCU codes or by using a keyword identifier. These reports offer the user a greater number of filters, including some demographic ones, that can be used to refine the results set. Data can be presented for individual colleges or for a user-determined subset. Registrars, marketers, institutional researchers and academic chairs will all find these reports helpful. Unlike the other groups of reports, these reports do not feature graphs and charts but rather they present the results in table form.</p>	RPT0050P	Program Groups - Program Counts by Applicant Type	Crosstab	This report shows the counts for a subset of programs (determined by the user) for multiple cycles, at each enrolment stage broken down by applicant type.	CIP MTCU Program Code and Title College
	RPT0051P	Program Characteristics - Program Counts by Applicant Type	Crosstab	Similar to 0050P, this report shows the counts for a subset of programs determined by program characteristics for multiple cycles, at each enrolment stage.	Oversubscribed Program Credential Program Type Program Level Study Area College Term Application Cycle Enrolment Stage Column Nesting
	RPT0052P	Program Groups - Program Counts by Demographic	Crosstab	This report shows the counts for a subset of programs (determined by the user) for multiple cycles, at each enrolment stage broken down by various applicant-demographic variables.	CIP MTCU Program Code and Title College Term Application Cycle Enrolment Stage Column Nesting Demographic Column
	RPT0053P	Program Characteristics - Program Counts by Demographic	Crosstab	Similar to 0052P, this report provides counts for a subset of programs (established by program characteristic input parameters selected by the user) for multiple selected cycles and enrolment stages, broken down by selected demographic variables.	Oversubscribed Program Credential Program Type Program Level Study Area College Term Application Cycle Enrolment Stage Column Nesting

PROGRAM GROUPING REPORTS

Note: The Enrolment numbers used in these reports are the study year one, funded headcount. For the Fall term the November headcount is used.

	RPT0054P	Program Counts by Demographic With Detail	Crosstab	Similar to 0052P, this report provides counts for a subset of programs (established by program characteristic input parameters selected by the user) for multiple selected cycles and enrolment stages, broken down by selected demographic variables.	CIP MTCU Program Code and Title Oversubscribed Program Credential Program Type Program Level Study Area College Term Application Cycle Enrolment Stage Column Nesting Demographic Column Applicant Type
	RPT0055P	Program Groups - Program Counts by Program Choice	Crosstab	This report provides counts for a subset of programs (established by program characteristic input parameters selected by the user) for multiple selected cycles and enrolment stages, broken down by applicant choice number.	CIP MTCU Program Code and Title College Term Application Cycle Enrolment Stage Column Nesting
	RPT0056P	Program Characteristics - Program Counts by Program Choice	Crosstab	Similar to 0055P, this report provides counts for a subset of programs (established by program characteristic input parameters selected by the user) for multiple selected cycles and enrolment stages, broken down by applicant choice number.	Oversubscribed Program Credential Program Type Program Level Study Area College Term Application Cycle Enrolment Stage Column Nesting
Connections SEM Conference- June 4, 2008 Version 1.0	RPT0057P	Program Groups - Program Counts by Catchment	Crosstab	This report provides counts for a subset of programs established by program group input parameters for the selected cycles and enrolment stages broken down by English catchment.	CIP MTCU Program Code and Title College Term Application Cycle Enrolment Stage Column Nesting
